

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) Encapsulated organic UV filters in powder form, obtainable by spray-drying or freeze-drying a dispersion comprising encapsulated organic UV filters.
2. (Currently Amended) UV filters in powder form according to Claim 1, ~~characterised in that~~wherein the dispersion is aqueous.
3. (Cancelled)
4. (Cancelled)
5. (Currently Amended) UV filters in powder form according to Claim 4~~1~~, ~~characterised in that the~~wherein the filters are encapsulated with capsules having walls of the capsules which are inorganic.
6. (Currently Amended) UV filters in powder form according to Claim 5, ~~characterised in that~~wherein the walls of the capsules are built up from silica gel or silicon dioxide.
7. (Currently Amended) UV filters according to Claim 4~~1~~, ~~characterised in that~~wherein the capsules comprise further substances.
8. (Currently Amended) UV filters according to Claim 7, ~~characterised in that~~wherein the substances are ~~photostabilisers~~photostabilizers, cosmetic oils and/or antioxidants.

9. (Currently Amended) UV filters in powder form according to Claim 1, ~~characterised in that~~wherein the powder is additionally after-treated.
10. (Currently Amended) Process for the preparation of encapsulated organic UV filters in powder form according to Claim 1, ~~characterised in that~~comprising spray-drying or freeze drying dispersions of encapsulated organic UV filters ~~are spray-dried or freeze-dried~~.
11. (Cancelled)
12. (Cancelled)
13. (Currently Amended) Process according to Claim 10, ~~characterised in that~~wherein the UV filters are in particulate form.
14. (Currently Amended) Process according to Claim 13, ~~characterised in that~~wherein the size of the UV filters in particulate form is 10 nm to 100 µm.
15. (Currently Amended) Process according to Claim 10, ~~characterised in that~~wherein additives are introduced before or during the process.
16. (Currently Amended) Process according to Claim 10, ~~characterised in that~~wherein the UV filters in powder form are after-treated.
17. (Previously Presented) Compositions having light-protection properties comprising UV filters in powder form according to Claim 1.
18. (Currently Amended) ~~Composition~~Composition according to Claim 17, ~~characterised in that~~which it is a composition which can be applied topically.

19. (Currently Amended) Decorative cosmetics comprising a composition ~~Composition~~ according to Claim 17, ~~characterised in that it is a composition for decorative~~ ~~cosmetics.~~
20. (Currently Amended) Composition ~~Co-mposition~~ having light-protection properties according to Claim +17, ~~characterised in that the composition additionally comprises~~ comprising at least one organic and/or inorganic UV filter.
21. (Currently Amended) Composition ~~hav-ing~~ having light-protection properties according to Claim +17, ~~characterised in that the composition comprises~~ comprising at least one self-tanning agent.
22. (Currently Amended) Composition having light-protection properties according to Claim +17, ~~characterised in that the composition comprises~~ comprising at least one ~~photostabiliser~~ photostabilizer.
23. (Currently Amended) Composition according to Claim 22, ~~characterised in that~~ wherein the photostabiliser photostabilizer is selected from the compounds ~~conforming to the~~ of formula V

V,

where

R¹ is ~~selected from~~ -C(O)CH₃, -CO₂R³, -C(O)NH₂ and -C(O)N(R⁴)₂;

X is O or NH;

R² stands for a linear or branched C₁₋₃₀-alkyl radical;

R³ stands for a linear or branched C₁₋₂₀-alkyl radical,
all R⁴, independently of one another, stand for H or linear or branched C₁₋₈-alkyl radicals
R⁵ stands for H, a linear or branched C₁₋₈-alkyl radical or a linear or branched -O-C₁₋₈-alkyl radical and
R⁶ stands for a C₁₋₈-alkyl radical.

24. (Currently Amended) ~~Com-position~~Composition having light-protection properties according to Claim ~~1~~17, ~~characterised in that the composition comprises~~further comprising one or more further UV filters selected from the group consisting of 3-(4'-methylbenzylidene)-dl-camphor, octyl methoxycinnamate, 3,3,5-trimethylcyclohexyl salicylate, 2-ethylhexyl 4-(dimethylamino)benzoate, 2-ethylhexyl 2-cyano-3,3-diphenylacrylate, 2-phenylbenzimidazole-5-sulfonic acid, and the potassium, sodium and triethanolamine salts thereof.
25. (Currently Amended) Composition having light-protection properties according to Claim ~~1~~17, ~~suitable for the protection of body cells against oxidative stress, characterised in that it preferably comprises~~comprising one or more antioxidants and suitable for the protection of body cells against oxidative stress.
26. (Currently Amended) Composition having light-protection properties according to Claim ~~1~~17, ~~characterised in that it~~which is an emulsifier-free emulsion.
27. (Currently Amended) Process for the preparation of a ~~com-position~~composition, ~~characterised in that~~according to claim 17, comprising mixing a UV filter according to Claim 1 ~~is mixed~~ with a cosmetically or dermatologically suitable carrier and optionally further ingredients.
